

## Ford C-4 Aluminum Deep Pan

Part # 643500

If your filter looks like Type A with the small tab on the side, then purchase ATI part #643564 (Ford part # D3BZ-7A098-A or aftermarket equivalent), which fits 1973 - 1977 Ford Bronco, and can use the enclosed deep pick-up tube.

If your filter looks like Type B, then purchase a stock type filter ATI #643560 (Ford part # C5AZ-7A098-C or aftermarket equivalent) which fits 1965 - 1969 Ford vehicles. No filter which allows the use of an extension tube is available for the early (Type B) valve bodies.
