- (1) #357090 Output Ring Gear
- (1) #357140 Low, Reverse Piston, modified with springs & retainer
- (1) # 357150 Park Lock Bracket, modified

Packed by: _____

You must use the park lock bracket supplied with the gear set or park may not work properly!

**PARK LOCK BRACKET**

When installing the bracket, push the bracket toward the outside of the transmission case as you are tightening the bolts. Check to be sure the large diameter of the park lock rod will lock between the bracket and the parking pawl.
